Across our programmes Saints Foundation engages with over 7,500 young people and adults at risk each year, and in doing so invests over £2.8 million into the local community of Southampton and surrounding areas.

Our funds are generated through grants, sponsorships, coaching income and the never ceasing support of a huge number of individuals and business within our local community; it goes without saying we are extremely grateful for any support, no matter of the level.

We are committed to sustaining and growing our impact over the coming years, and would be delighted if you can join us on that journey.

Saints Foundation is committed to working with businesses and individuals that share the values of our charity and Southampton Football Club, and where there are common synergies that can support our mission to fulfil potential and change lives of adults and young people that are at risk within our local community.

As a Patron you will be supporting a brand that is valued, trusted and considered at the heart of communities in Southampton and surrounding areas. Your funds will directly support projects helping those experiencing some of the greatest challenges in society, in our local community.
